### ABSTRACT

Enrollment at Cuesta College in California is at an all-time high of 10,165 students and it continues to increase. This report discusses student characteristics and enrollment trends for the periods 1997-2001 (5-year analysis) and 1999-2001 (2-year analysis). Highlights include: (1) continuing students constituted only 49% of the 2001 student body, while first-time students accounted for 25%, new transfer students accounted for 13%, returning transfer students accounted for 4%, and returning students accounted for 9%; (2) 44% of students enrolled in day classes, 34% enrolled in day and evening classes, and 22% enrolled only in evening classes; (3) 34% of students were enrolled in fewer than six units, while 37% of students were full time (12-15 units); (4) 66% of students had completed fewer than 30 units, while only 5% of students had completed 60 or more units; (5) 7% of students had already earned a bachelor's degree or higher; (6) 55% of students are female, and 45% are male, which compares well with the nationwide trend; (7) 72% of students are white, 14% are Hispanic, 1% are African American, and 3% are Asian; (8) an increase of students in the other/undeclared ethnic category occurred at each campus -- this was most pronounced at the Arroyo Grande center, where the percentage almost doubled from last year (7% in 2000 to 12% in 2001); and (9) 21% of students are age 20-21, 15% are 19, and 10% are 31-40. Appended are enrollment histories, local residency statistics, regional enrollment comparisons, and a glossary of terms. (Contains 21 tables and 31 figures.) (NB)

### **EXECUTIVE BRIEF**

### FIVE -YEAR STUDENT CHARACTERISTICS AND ENROLLMENT TRENDS (1997 -2001)

Table 1 (and Appendix I) shows that enrollment at Cuesta College continues to increase and is now at an all-time high of 10,165 students—a 4.4% increase from fall 2000. Continuing students constitute only 48.6% of the student body. The remaining students are new, transferring in, or returning to Cuesta after an absence of at least one semester.

Table 2 indicates a very slight increase in the proportion of students taking only day classes (43.9% in 2001 compared to 43.4% in 2000). Accordingly, the proportion of students enrolled in both day and evening classes has only decreased from 34.0% in 2000 to 33.9% in 2001. The proportion of students enrolled only in evening classes has fallen only slightly since 2000 from 22.6% to 22.2%.

Table 3 indicates a small reduction in student course load within the twelve (12) units or more group, which is considered "full-time". The proportion of students in this group is 42.8% in 2001 down from 45% in 2000.

Table 4 shows student enrollment by number of units/degrees completed. While relative stability is also apparent between 2000 and 2001 the percentage of students having already completed a BA/BS degree continues to increase from 3.7% back in 1997 to 6.7% in 2001.

Table 5 shows the gender distribution of the Cuesta student body. As in prior years, female students constitute a greater percentage of the overall enrollment (55.3%) than do males (44.7%). This phenomenon is true nationwide as well as locally.

Table 6 shows the ethnic configuration of Cuesta's students. The percentage of white students has decreased from 76.4% back in 1997 to 72.4% in 2001. This percentage decrease is redistributed as increases in the proportions of Hispanic students (now 13.6% compared to 12.5% in 1997) and in the "Other/Undeclared" category (now 7.1%) in 2001. The remainder of the ethnic categories remained essentially unchanged.

Table 7 shows the age distribution of current Cuesta students. Again, the relative percentages have remained stable over time except that the "over 65" group more than doubled between 2000 and 2001 - - from 0.7% to 1.5%. The median age of the overall student body is 21 while the mean age is 26.6. The following table shows median and mean age by campus location.

Campus (By Location)	Median	Mean
San Luis Obispo	21.00	25.84
North County	24.00	29.83
South County	21.00	26.49
Overall District	21.00	26.61

Table 8 shows a small increase in the number of students identified as having physical and/or psychological disabilities - - from 630 in 2000 to 641 in 2001.

Table 9 has traditionally shown data for local and out-of-area first-time students. This year table 9 shows that data are not available for 2001. In an effort to replicate the new system wide community college application, the question, from which the data for table 9 come, is not asked on Cuesta's new application form. Consequently, a new definition of what constitutes local and out-of-area first-time students was developed; the information based on this new definition is portrayed in table 9A.

Table 9A shows the distribution of local and out-of-area students using the new definition. Specifically, the *high school location* of first-time students *under-the age of 21* was examined. If a student's high school was located within San Luis Obispo County, that student was counted as local; if, on the other hand, a student's high school was located outside of San Luis Obispo County, that student was counted as out-of-area. This definition differs from the definition used in table 9 in two major fashions: First, in table 9 <u>all</u> first-time students were examined, whereas only those students under the age of 21 were examined in table 9A. Second, in table 9 students were sorted into categories of local or not based on the way they responded to a question on the application that asked if they had lived in San Luis Obispo County for more than one year.

Given that distinction, it is interesting to note that the proportion of local and out-of-area students is virtually identical regardless of which definition is employed. Using the new definition, one can see a continuing downward trend in the percentage of out-of-area first-time students under the age of 21 (from 47.8% in 1997 to 36.3% in 2001.) This downward trend existed under the old definition of local vis-àvis out of area also. Thus both existing trend and relative proportion information are preserved under the both definitions.

### Executive Brief Continued

Table 10 shows the number and percent of first-time students from local high schools attending Cuesta. These percentages have remained relatively stable over time. Note, however, an increase from 12.6% in 2000 to 19.2% in 2001 from Arroyo Grande High School. As Cuesta's presence in the South County increases it is anticipated that this percentage will continue to increase in future years.

Table 11 shows the educational objective for attending Cuesta College as stated by incoming students. The information regarding goals and objectives is obtained from the student's original application for admission to Cuesta. Naturally, these objectives can (and do) change as a student gains college experience and receives counseling. In 2000, the percentage of students who's major was undeclared (or failed to respond to this question) rose by 2.3 (from 8.4% to 10.7%) percentage points. In 2001 the same item rose by an additional 4.7% (from 10.7 to 15.4%.) The percentage of students indicating a goal of transfer with or without a degree fell by 4.3 percentage points from 56.2% in 2000 to 51.9% in 2001. Similarly, the percentage of students indicating a goal of AA/AS degree fell from 51.7% in 2000 to 45.6% in 2001—a drop of 6.1 percentage points.

### STUDENT CHARACTERISTICS AND ENROLLMENT TRENDS BY EDUCATIONAL REGION (1999 - 2001)

Table 12 shows the enrollment status of students for each of Cuesta's three educational regions over the last three years. Both the North County campus and the San Luis Obispo campus showed impressive growth between 1999 and 2000 and some growth in 2001. Enrollment at the South County center decreased by 10 students from 1999 to 2000 but grew by 92 students in 2001.

Table 13 shows day/evening status of students by educational site. The San Luis Obispo campus continues to exhibit the greatest percentage of "day only students" (51.4% in 2001). Both North and South County students continue to enroll students in more evening courses, primarily due to when courses are scheduled at each site.

Table 14 shows student course load by educational location. The pattern of course loads by region has remained fairly stable over the last three years. The San Luis Obispo campus continues to attract more full-time students (carrying 12 or more units)—nearly 50% in 2001. While the North County campus and Arroyo Grande center currently attract a majority of part-time students.

Table 15 shows the number of units completed by students by educational site. The vast majority ( around 66%) of students have completed less than 30 units—regardless of educational site.

Table 16 shows student gender by educational site. While the San Luis Obispo campus is divided roughly equally between male and female students (47.1% vs. 52.9% in 2001), both the North County campus and the South County center have a female enrollment of two-thirds of the student body.

Table 17 shows the ethnic configuration of students at each campus/center. An increase in the percentage of students in the Other/Undeclared category occurred at each campus/center; this was most pronounced at the Arroyo Grande center where the percentage of Other/Undeclared almost doubled from last year (6.7% in 2000 to 12.1% in 2001). Most strikingly, the percentage of Hispanic students at both the North County campus and the Arroyo Grande center now represent roughly 20% of the student population. This is most probably attributable to the greatly enhanced recruitment, course offerings and services directed toward the English as a Second Language (ESL) population in the North and South county.

Table 18 shows the age distribution of students by educational location. The age distributions at each campus have remained relatively stable over the last three years.

Table 19, as in the case of table 9, shows that no data are available for 2001. The reason for this lack of data is explained in detail under the table 9 description above.

Table 19A explores the number and percentage of local and out-of-area first-time students under the age of 21 based on high school location by educational region. The San Luis Obispo campus continues to attract the greatest percentage of out-of-area first-time students (roughly 42.7% in 2001). The North and South county, on the other hand, serve considerably greater proportions of local students (90.7% and 88.2% local respectively). The proximity of Cal Poly probably accounts for these differences. Similar to the college as a whole, the percentage of out-of-area students at each individual campus/center continues to decrease.

Table 20 shows high school of origin for first-time students by educational region. As would be expected, each local high school continues to contribute students to a campus in direct proportion to its proximity to that campus.

Table 21 shows student's educational objective by campus location. Again in 2001, the North County campus has a substantially higher proportion of its students (17.7%) seeking vocational goals than the other campuses (roughly 11%). The San Luis campus continues to

### Executive Brief Continued

lead in the percentage of students indicating transfer as their educational objective (56.2% in 2001). Again, the percentage of students indicating "Undeclared" (or not responding) increased at each educational site to roughly 14% across campuses.

### **APPENDICES**

Appendix I shows a complete (1965 - 2001) enrollment history of Cuesta College—from an initial enrollment of 1,670 to this year's 10,165 students.

Appendices II through V depict, overall and by educational region, the number and percent of students residing in the various parts of San Luis Obispo County. Notwithstanding the San Luis Obispo campus, the overwhelming majority of students lives in close proximity to the campus/center they are attending. Specifically, 41.7% of students enrolled at the San Luis Obispo campus reside in the city of San Luis Obispo, whereas 83.2% of South County students and 95.6% of North County students reside in close proximity to their respective campuses/center.

Appendix VI explores—in Venn diagram form—the number of students attending each individual (or a combination of) Cuesta campus(es)/center.

NOTE: The definition employed in this table differs from that employed in Table 9. The high schools of first-time students under the age of 21 were examined in table 9A. This is to be contrasted with the definition used in table 9, wherein all first-time students were categorized as local or not based on their answer to an application question regarding local (county) residency.

### APPENDIX VI: REGIONAL ENROLLMENT COMPARISONS

FIGURE 31: Regional Enrollment Comparison

ALL CAMPUSES
N=10165\*\*

22

<sup>\*\*</sup> This figure represents the unduplicated number of students enrolled in at least one course at any location.

33

<sup>\*</sup> This figure represents the duplicated number of students enrolled in at least one course at the specified location.

### GLOSSARY OF TERMS

ACQUIRED BRAIN IMPAIRMENT (ABI): A verified deficit in brain functioning which results in a total or partial loss of cognitive, communicative, motor, psycho-social and/or sensory-perceptual abilities.

AMERICAN INDIAN: Ethnic category that includes indigenous tribes of the continental U.S. and Alaska.

ASIAN AND PACIFIC RIM: Ethnic category which includes sub-groups of Asians (Chinese, Japanese, Korean, Laotian, Cambodian, Vietnamese, East Indian and other Asians) and subgroups of Pacific Rim cultures (Guamanian, Hawaiian, Samoan and other Pacific Islanders).

ASSOCIATE DEGREE: TRANSFER TO FOUR-YEAR COLLEGE: These students intend to complete the A.A./A.S. degree requirements in addition to those general education requirements of a four-year college necessary for transfer.

ATTENTION DEFICIT/HYPERACTIVITY DISORDER: A persistent pattern of inattention and/or hyperactivity/impulsivity that is more frequent and severe than is typically observed in others of the same age.

CONTINUATION HIGH SCHOOLS: These schools include: Atascadero Adult, Liberty, Leffingwell, Lopez, Oak Hills, Pacific Beach and San Luis Adult Evening.

CONTINUING STUDENTS: Students who were enrolled at Cuesta College the previous semester.

DAY AND EVENING STUDENTS: Students enrolled in both day and evening classes.

DAY STUDENTS: Students enrolled in classes that begin prior to 4:00 p.m.

DEVELOPMENTALLY DELAYED LEARNER (DDL): Students with below-average intellectual functioning.

EVENING STUDENTS: Students enrolled only in classes that begin at or after 4:00 p.m.

FIRST-TIME STUDENTS: Students who have never attended college-usually recent high school graduates, who can be local or out-of-area students.

HEARING IMPAIRMENT: A total or partial loss of hearing function, which impedes the communication process essential to language usage.

HISPANIC: Ethnic category that includes Mexican-Chicano, Mexican-American, Central American, South American and other Hispanic groups.

LEARNING DISABILITY: Students with average to above-average intellectual ability, but with a severe information processing deficit.

MOBILITY IMPAIRMENT: A serious limitation in locomotion or motor function.

NEW TRANSFER STUDENT: Student who has attended or is attending another college.

NORTH COUNTY CAMPUS: Comprises classes taught at the following locations: North County campus (at Paso Robles), Paso Robles High School and Mid-State Fairground.

OTHER DISABILITY: Includes students with disabilities who do not fall into any of the categories described and who indicate a need for support services or instruction. Students with attention deficit/hyperactivity disorders and students with a previously identified learning disability are also included.

OTHER HIGH SCHOOLS: Central Coast Christian, Grace Christian of Paso Robles, North County Christian, Paso Robles School for Boys and San Luis Christian Academy.

OCCUPATIONAL CERTIFICATES: Certificates of Completion for specific vocational skills and Certificates of Proficiency for completion of a wider area of vocational study.

### **GLOSSARY OF TERMS**

OCCUPATIONAL MAJOR: Usually a major field of study which terminates with the completion of an A.A./A.S. degree (e.g. Automotive Technology, Library Technology).

PERSONAL INTEREST: Courses taken for personal growth and enjoyment.

PHYSICAL DISABILITY (MOBILITY/VISUAL): Student who is visually impaired (e.g., blind, or has a serious limitation in locomotion or motor function requiring wheelchair or crutches).

PSYCHOLOGICAL DISABILITY: Student who has a persistent psychological or psychiatric emotional or mental illness.

RETURNING STUDENT: Student who has previously attended Cuesta College, but not during the last semester.

RETURNING TRANSFER STUDENT: Student who has attended another college since leaving Cuesta College.

SAN LUIS OBISPO CAMPUS: Comprises courses taught at the following locations: Cuesta College main on Highway 1, Cal Poly, Atascadero State Hospital, Cambria, Sierra Vista Hospital, and El Paso de Robles Boys School.

SOUTH COUNTY SITE: Comprises courses taught at Arroyo Grande High School.

SPEECH AND LANGUAGE IMPAIRMENT: One or more speech/language disorders of voice, articulation, rhythm, and/or the receptive, and expressive processes of language.

TRANSFER SUBTOTAL: In Table 11, the sum of all students with a transfer objective (including those with an objective to obtain an A.A./A.S. Degree and those without such an objective).

TRANSFER TO FOUR-YEAR COLLEGE, NO A.A./A.S.: This term refers to students who are not planning to complete requirements for an A.A./A.S. degree, but intend to complete the general education requirements for transfer to a four-year college.

VISUAL IMPAIRMENT: A total or partial loss of sight.
